

I am writing to let you know that that I strongly appose giving priority to LPFM over FM translator service. My children and I listen to K-LOVE on the radio. This station, unlike many stations, is safe and enjoyable for our whole family. Without this station, we would not have a common interest in music. We have tried other stations, but they are not as enjoyable. I ask that nothing be done to replace the K-LOVE signal. I feel that K-LOVE provides for a need that exists in our country and the world. Thank You for consideration of this matter.

Henry Harlamert
